DETAILED ACTION

The preliminary amendment filed February 20, 2002 (Paper No. 11) has been entered.

Claims 1-12 are pending in the instant application.

Election/Restriction

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-4, drawn to a method of converting a stem cell into a ventral neuron, classified in class 435, subclass 455.
- II. Claims 5-12, drawn to a method of diagnosing a motor neuron degenerative disease, classified in class 435, subclass 4.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are patentably distinct, one from the other, because the inventions are drawn to materially different methods that require different starting materials, different modes of operation, and produce different effects. The method of the invention of Group I requires as starting materials a stem cell and an Nkx6.1-encoding nucleic acid. The method of the invention of Group II requires as starting materials an nucleic acid sample from a subject and materials for sequencing a nucleic acid molecule. The method of the invention of Group I results in producing a ventral neuron, whereas the method of the invention of Group II results in a diagnosis of a subject. Thus, the method of the invention of Group I is patentably distinct from the method of the invention of Group II.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and recognized divergent subject matter and

Art Unit: 1632

because the searches required for the separate inventions are not coextensive, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Anne-Marie Baker whose telephone number is (703) 306-9155. The examiner can normally be reached Monday through Thursday and alternate Fridays from 10:00 AM to 7:30 PM.
